

THE WORDPRESS PLUGINS YOU NEED TO DOWNLOAD RIGHT NOW!

-  **Akismet** – Protects you from spam and malicious content by checking your comments and contact form submissions.
-  **Jetpack** – The only plugin you need for site stats and analytics; security services; related posts; and search engine optimization.
-  **WP Super Cache** – This plugin enables your website to load faster and use less server resources.
-  **Yoast SEO** – Improve your WordPress SEO and get found by readers! This plugin allows you to be fully optimized for Google and other search engines to rank your content!
-  **Editorial Calendar** – Gives you the ability to visualize when your posts will go live, and makes it easy to drag and drop them onto different days!
-  **SumoMe** – Completely free and gives you all the tools you need to grow your traffic! Includes: List Builder, Scroll Box opt-in forms, Smart Bar, and Welcome Mat
-  **CommentLuv** – Comments are wonderful at boosting your engagement rates and having CommentLuv enabled on your blog will encourage other bloggers to leave a comment. Why? Because the plugin will automatically post their most recent blog post...and who doesn't love promotion?!!
-  **Insert Headers and Footers** – You'll need this if you want to run ads through Google AdSense. It also helps you use the footer of your blog for ads, or pertinent information, without having to change your theme codes.
- Contact Form 7** – A very simple and handy plugin for creating different types of content forms.
- Google XML Sitemaps** – Sitemaps make your site easier for Google to crawl and read, which helps your site rank higher!
